Book Description

“What a terrific message to send to kids! I wish I knew about skin cancer as a child and to wear sun block. I myself had a basal cell on my nose at age 45. This is such an important message to children!” Dr. Jeffrey Stein, Internal Medicine, Board Certified, Boca Rotan, Florida “I am very passionate about preventative health care, especially with respects to suncreening. I discuss this subject every day with all of my patients and their parents. After having a patient diagnosed with melanoma, I continue to preach the benefits of sunscreening and reapplying every day to prevent skin cancer! I would recommend this book to all of my patients and their parents!” Norina B. Ocampo, MD, FAAP, board certified pediatrician, graduate from Georgetown University School of Medicine, former resident at the MUSC Children’s Hospital
